tory; Expected After War Slump Not Realized.

The foreign trade of the United States

"The expectation that we should witness a fall off in our foreign trade after the termination of the war has not been realized. Both imports and exports continue to grow, and the total on both sides of the ledger will be bigger in the calendar year 1920 than in any year since the beginning of the war and several times as much as in any year prior to the war. The biggest imports in any calendar year prior to the war were a little less than \$2,000,000,000, and will total \$6,000,000,000 in the calendar year ip20, while exports, which never exceeded \$2,500,000 000 prior to the war, will be over \$8,000,000,000 in 1920.

"In certain details, however, the trade record during and since the war shows remarkable changes. We have become large importers of certain manufacturing materials and very large exporters

tures one-half of the grand total."

The statement concludes with the opinion that the "favorable trade balance," namely, excess of exports over imports, will be smaller this year than at any time since 1915 and will probably approximate \$2.000.000,000, as against \$4,000.000.000 in 1919 and a little more than \$3.000.000.000 in each of the three

BRUSSELS, Oct. 3.—After the financial conference took a recess yesteray four ommittees went earnestly to work, and it is hoped that at least two of them will be able to report Wednesday. It is understood that the currency committee has decided in the affirmative two of the questions submitted to it—"ought paper circulation to be reduced in all countries where inflated?" and "can it be done?" The second question, how it is to be done, is giving some difficulty to the various groups, the countries being divided on the subject according as the interior situation is affected by the problem. is hoped that at least two of them

THE WEEKLY CURB MARKET.

Reorganization of

Maxwell Motor Company, Inc.

Chalmers Motor Corporation

In order to participate in the benefits of the Plan and Agreement of Reorganization dated September 1, 1920, holders of unsecured notes and claims and holders of stock or certificates representative thereof must deposit the same with CENTRAL UNION TRUST COMPANY OF NEW YORK as Depositary, at its office, 80 Broadway, New York City, before the close of business on OCTOBER 15, 1920. Notes must be endorsed in blank without recourse; claims must be accompanied by assignments in form prescribed or approved by the Committee; and stock or voting trust certificates must be endorsed in blank for transfer and bear all stamps required by law. Certificates of Deposit will be issued for the notes, claims and stock deposited.

In order to give full opportunity to depositing stockholders to avail of the right of purchase of new stock under the Plan the Committee has extended the time within which there must be made the initial payment of the purchase price of the minimum amounts of new stock offered for purchase under the Plan. To avail of the right to purchase new stock under the Plan, depositing stockholders, whose certificates of deposit have been stamped as assenting to the Plan, must make the initial payment of 10% of the purchase price of the minimum amounts of stock which they are entitled to acquire under the Plan to the Depositary, CENTRAL UNION TRUST COMPANY OF NEW YORK, at its office, 80 Broadway, New York City, on or before the close of business on OCTOBER 27, 1920.

As provided in the Plan, Subscription Warrants and Application Certificates will be issued to depositing stockholders making said initial payment on account of the purchase price of minimum amounts of new stock offered under the Plan. The Committee has determined, and hereby gives notice, that payment of the balance of the purchase price of new stock offered for sale under the Plan remaining after the payment of the initial payment of 10% of the purchase price will not be required earlier than, as to one-third of said balance, November 27, 1920, as to one-third of said balance, December 27, 1920, and as to one-third of said balance, January 27, 1921.

The rights of purchase given by the Plan and Agreement to depositing stockholders are believed to be valuable, and the Committee will not be in a position to consent that these rights be availed of after the time limited for that purpose has expired and the new stock available for sale under the Plan, in accordance with the provisions thereof, has been allocated to others.

Copies of the Plan and Agreement of Reorganization and further information desired can be obtained on application to the members of the Committee or its Secretary.

large importers of certain manufacturing materials and very large exporters of manufactures. We have also increased greatly our importations of certain foodstuffs, but, on the other hand, have greatly reduced our exports of food, though in that other agricultural product, manufacturing material, our exports show material increases. The imports big as they are, are about equally divided between the three great groups, feed, manufacturing material and manufactures, while on the export side food forms about one-fourth, manufacturing material another fourth and manufactures one-half of the grand total."
